

Abdul Mujeeb Khan Niazi

Planning Engineer | Primavera P6 Certified | Computer Science Graduate

Mianwali, Pakistan • +92 304 0075362 • abdulmujeebkhanniazi@gmail.com • github.com/AbdulMujeeb2025

CAREER OBJECTIVE

Recent Computer Science graduate with specialized training in Primavera P6 and hands-on professional experience as a web developer, seeking to start a career as a Planning Engineer. My technical and programming background gives me a strong edge in quickly grasping scheduling software, and I am eager to bring my analytical skills and disciplined project workflow into real-world construction planning and project management.

CERTIFICATION

Planning Engineer Course — IPED, Islamabad

Completed an intensive two-month course focused entirely on construction planning. Gained hands-on experience with Primavera P6, learning how to break down projects using WBS, apply the Critical Path Method (CPM), and handle resource loading. Also learned how to set project baselines and track progress using S-curves.

International Certification — Certificate in Primavera P6 (Project Management)

Awarding Body for Qualifications & Certifications (ABQC), United Kingdom

Internationally recognised qualification awarded upon successful completion of a forty-day programme of studies in Project Management, delivered through IPED Pakistan.

Session	20 April – 1 June 2026
Awarded On	25 June 2026
Certificate No.	ABQCPM26100126
Registration No.	26100126
Centre	IPED Pakistan

EDUCATION

BS Computer Science — MY University, Islamabad

Dec 2024

TECHNICAL SKILLS

Planning & Scheduling	Primavera P6, MS Project (Basic), WBS, Critical Path Method, S-Curves, Delay Analysis, Baseline Management, Resource Loading
Web & Software Development	WordPress, Elementor Pro, WooCommerce, React, Node.js, Express.js, REST APIs, JavaScript, Python, HTML/CSS, Tailwind CSS
Databases & Tools	MongoDB, MySQL, SQL, Git, GitHub, VS Code, AutoCAD (Basic), MS Office (Advanced), Excel

WORK EXPERIENCE

WordPress Developer (Internship) — Okrasoft

Aug 2025 – Present

Mianwali, Pakistan

- Developing and maintaining client websites using WordPress, Elementor Pro and custom themes.
- Building e-commerce stores with WooCommerce, including product management and payment gateways.
- Customizing plugins and themes according to client requirements and design specifications.
- Optimizing website performance, SEO and security for enhanced user experience.
- Providing ongoing website maintenance, updates, and technical support.

PLANNING ENGINEERING — COURSE PROJECT

Since the IPED training was focused on civil projects, applied these skills practically to a building construction project:

- Developed the complete Work Breakdown Structure (WBS) and built the schedule from scratch in Primavera P6.
- Set the project baseline and used S-curves to track progress.
- Performed resource loading to check utilization.
- Analyzed potential delays on the critical path and documented simple recovery plans to keep the project on track.

DEVELOPMENT PROJECTS

E-Commerce Store Development

- Developed fully functional e-commerce websites using WooCommerce.
- Created product catalogs, shopping cart, and secure checkout systems.
- Customized themes and layouts using Elementor Pro for responsive design.
- Integrated plugins for payment gateways, shipping, and inventory management.

Business Website Portfolio

- Built professional business websites with custom layouts and modern UI.
- Implemented contact forms, booking systems, and lead generation features.
- Ensured mobile responsiveness and cross-browser compatibility.

Nutri Guidance — Full Stack Web Application

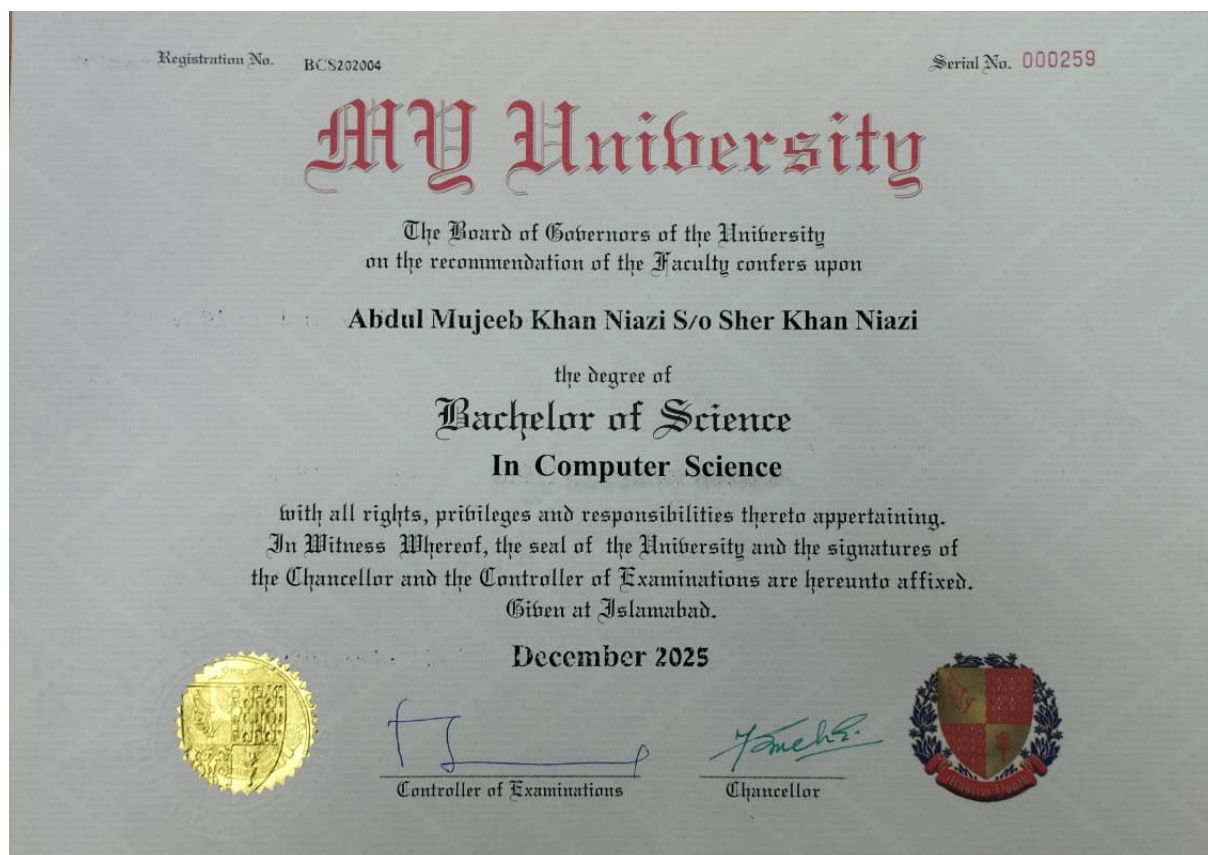

- Developed a full-stack meal planning application using React and Node.js.
- Implemented recipe suggestions, calorie tracking, and meal plan features.
- Integrated external APIs and managed data using MongoDB.
